

Resolution of No Confidence in the President and Provost

July, 2026

WHEREAS: The faculty acknowledge that the university is currently in extreme financial difficulty and that deep cuts may be necessary

WHEREAS: The faculty do not trust the current administration to make the necessary decisions to navigate this transition in a way that meets out responsibilities to students and accreditors

WHEREAS: The current administration's slow, opaque, apparently uninformed and non-transparent addressing of the crisis has deepened and aggravated its scope

WHEREAS: The faculty stand ready to take on extra work, make deep sacrifice, and work with an open leadership that makes transparent and well-informed decisions

NOW LET IT BE RESOLVED: That the faculty have no confidence in the provost and president of Illinois Tech to navigate the university's severe financial crisis.

LET IT BE FURTHER RESOLVED: That the Board of Trustees provide or install such leadership, via Deans and/or other trusted academic leaders, as is necessary to navigate this situation in the best interests of the students in particular and the Illinois Tech community in general.
